10 Killed, 80 Hurt in British Train Collision

MANCHESTER, England — Two British trains crashed into each other atop a viaduct 80 feet over the River Irt today, killing 10 passengers and injured 80 others.

One coach somersaulted into the river bed, landing upside down after dropping a 30-foot gap in the viaduct wall.

An emergency call went out for acetylene equipment to burn through parts of the wreckage to reach at least three persons believed trapped in the coach. The river is shallow at the isolated stretch of track about a mile from Victoria Station.

Breakdown gangs went to work immediately to remove wrecked coaches from the main line. Exactly how the collision occurred was not announced.

A Manchester newsman said the trains crashed at the beginning of the viaduct where the tracks converge.

One of the first rescuers on the scene, George Crowther, who lives 100 yards from the viaduct, said he heard a "loud bang" and then saw a coach in the river.

"There were men, women and children, frantically trying to escape from the wrecked coaches," he said. "One child was walking around in a dazed condition crying 'Mom.' One woman I helped to the ambulance said she just got out of bed after recovering from pneumonia and this was her first outing."

Highway Death Rate to Climb

LITTLE ROCK, (AP) — The National Safety Council said today that unless something is done Arkansas highway death toll rate—already above the national average—will grow higher.

James D. Hill, field director for the council, told Gov. Cherry and state and civic officials interested in safety programs that there had been a "serious slackening of highway safety effort" in Arkansas last year.

At the meeting in the governor's office, Hill distributed copies of the council's 1952 inventory of traffic safety activities in this state. The report said that from a peak performance of 65 per cent in 1950, the Arkansas safety program dropped to 48 per cent in 1951 and 34 per cent in 1952.

It added that Arkansas' 1952 death rate was 9.1 for every 100 million vehicle miles compared to a national average of 7.3. Arkansas traffic accidents were reported to have killed 469 persons and injured 10,000 in 1952.

Hill made two suggestions to promote greater highway safety in the state:

1. A co-ordinate attack by all official agencies of government;
2. A renewed activity by public supported agencies, such as the Arkansas Safety Council, trade associations and civic clubs.

He urged an annual statewide safety conference of officials and citizens.

Good Fishing for Weekend in State

LITTLE ROCK, (AP) — Conditions for catching game fish in Arkansas this weekend generally are fair, but a few "good" spots were listed in the weekly reports by game wardens today.

Most of them are in North Arkansas.

The best bass fishing is reported at Norfolk Lake in Baxter County; small streams in Boone County; White River in Carroll County; Lake Chicot in Chicot County; Whiteoak Creek in Franklin County; all streams in Independence County.

Good catfishing, especially by trotline, was reported at Lock 6 on the Ouachita River in Ashley county; St. Francis River in Greene County; all lakes and streams in Logan and Miller counties and Fourche River in Perry County.

Two Arrested in Beating, Robbery

BLYTEVILLE, — Two men were held today and a search for two others continued as an aftermath of the beating and robbery of a Parkin, Ark., farmer.

The farmer, Dan Lewis, 48, was slugged and robbed of \$700 by four men near Bassett, Ark., Wednesday.

Mississippi County Sheriff William Berryman reported that Robert Keller, 28, of Effingham, Ill., was arrested at Trumann and Odie C. Harrison of Tupelo, Miss., at Memphis.

No formal charges have been filed against the pair. Berryman said he was not certain of the identity of the two other men being sought.

How to Prevent Needless Tragedies

CHICAGO (UP) — The National Safety Council said today that many tragedies could be prevented if parents removed the handles and hinges from doors of discarded refrigerators and boxlike containers, including trunks.

Thomas Fausler, director of home safety for the council, made the statement in commenting on the deaths of nine small children in ice boxes at Crawfordville, Ark., and Richmond, Va.

Illinois has a new law designed to prevent such tragedies. The law prohibits storage or abandonment of ice boxes in places accessible to children unless the doors have been removed.

The law was passed because several children in the state died in ice box accidents in recent years.

Persons violating the law are subject to a \$50 fine or 30 days in jail or both.

War Prisoners From Korea in Hawaii

By ROY ESSOYAN

HONOLULU, (AP) — Eleven liberated American war prisoners landed at Hickam Air Force Base last night, homeward bound from North Korean prison camps.

They were aboard the second homebound POW plane from Japan since the exchange of prisoners began 10 days ago.

The group included two Hawaii boys who were swept into the arms of waiting families.

Seven of the men, looking thin and tired after their Red captivity, were carried to a waiting ambulance.

One of those aboard, Sgt. Lawrence A. Buzbee of Ruskin, Fla., was not sick or wounded. He is being flown home because of illness in his family.

Air Force Lt. Col. Thomas D. Harrison of Clarksburg, N. M., who lost a leg in the crash of jet fighter in North Korea, lobbied for the big military transport plane on crutches. He looked tanned and strong. He is the highest ranking POW freed.

Aboard the plane were 23 other sick and wounded Americans, regular medical air evacuation patients and not liberated prisoners.

Within 10 minutes the men were in ambulances and on their way to Tripler Army Hospital for medical examination and a night's rest. They were expected to leave for San Francisco late today.

At the airport to meet the returning prisoner was Lt. Gen. John W. O'Daniel, who met all planes carrying sick and wounded POWs home last spring, and Gov. Samuel W. King of Hawaii who presented the two Hawaii boys with gladiolus.

No interviews were permitted and photographers were barred from taking pictures of the first six men off the plane because, the Army explained, they had asked not to be photographed.

1. A co-ordinate attack by all official agencies of government;

2. A renewed activity by public supported agencies, such as the Arkansas Safety Council, trade associations and civic clubs.

He urged an annual statewide safety conference of officials and citizens.

Sharp Increase in Watermelon Production

LITTLE ROCK, (UP) — State Budget Director Julian Hogan today said he believes the 1953 fiscal year will save the state more than \$1,200,000, the first year since Hogan said he tabulated his first-quarter allotments yesterday.

He said the state's total of \$1,246,552 for 54 state agencies. On an annual basis this would be \$1,238,000 less than the agencies could have spent in the free-wheeling days before budget restrictions imposed by Gov. Francis Cherry's new fiscal code.

Hogan noted a large cut in the allotment for the administrative budget and purchasing divisions to the state finance department. It allotted itself \$55,936 for the first quarter from an annual budget of \$330,000. A fourth of the annual budget would be \$82,500.

Hogan said he notified the agencies of the reductions below their legislative appropriations and told them they can make the savings count wherever they wanted, in salaries, supplies, maintenance or travel. However, in future allotments, agency heads will have to justify each item.

Hogan said he hopes this plan will make for more thriftiness.

LOS ANGELES, Calif. (UP) — Pennsylvania Gov. John S. Fine lent his support today to Sen. Joseph McCarthy (R-Wis.) because "I don't think 'McCarthyism' is such a bad influence."

"I don't think he's (McCarthy) doing any harm, but rather a service," Fine told reporters yesterday while stopping off here in route home from the recent Seattle governor's conference.

LOS ANGELES, Calif. (UP) — The U. N. banner in Korea read another try today at patching up British-United States differences over the proposed inclusion of India and the Soviet Union in the forthcoming Korean political conference.

Delegates gathered at U. S. military headquarters for their third private huddle on the issue only a few hours after the British government declared it was not committed to a renewal of the Korean War if the armistice were broken by any nation on the U. N. side.

The declaration apparently was aimed at South Korean President Syngman Rhee, who told a mammoth rally in Seoul today that "it is our wish and determination to march north at the earliest possible time" to achieve unification of divided Korea.

The British-American rift over the makeup of the political conference followed Britain's nomination of both Russia and India. The London government has maintained that if the world wants a real settlement Russia must be represented and it put forward India as a symbol of non-Communist Asia.

The United States has insisted that only countries which fought for the U. N. have the right to represent the international organization at the parley. It maintains this is the clear meaning of the armistice agreement.

Hurricane Veers Out to Sea, New England Escapes

BOSTON (AP) — New England escaped the brunt of the northward hurricane today as the storm moved out to sea south of Nantucket but coastal areas were hit with heavy rain.

At 3 a. m. (EST) the hurricane entered a short distance east of Nantucket Island. The center was moving east-northeastward about 20 miles an hour. The Western Bureau said. Highest winds were estimated at 75 miles an hour over a small area near the center, and gales extended outward 200 miles.

Cape Cod and Nantucket had gusts up to 60 miles an hour just before dawn at the peak of the storm.

The Weather Bureau said the center was expected to continue in an east-northeastward direction and be almost 200 miles east of Cape Cod at 11 a. m. (EST).

In its early morning forecast the Weather Bureau said northeast storm warnings remain displayed from Block Island to Provincetown and were lowered north of Provincetown at 5 a. m. (EST). Gusty northeast to northwesterly winds 15 to 25 m.p.h. were forecast north of Provincetown to Eastport.

The Coast Guard said early today it had received no reports of any damage nor any calls for assistance.

The hurricane, termed B-for-Barbaric, was the first to strike the coastal United States this year, although the second hurricane of the season. The first, A-for-Allie, blew itself out near the Gulf Coast.

The strong winds missed Long Island, N. Y.

New York Coast Guard headquarters, responsible for all Long Island, said it had no word of excessive damage and no immediate distress calls.

However, the Weather Bureau said the Nantucket and Cape Cod areas faced the possibility of a strong buffeting from the hurricane, which swung out to sea yesterday after sweeping a path of destruction over North Carolina and Virginia coastal areas. At least five persons were dead.

Indications were that the North-east, battered down for the worst, would get only a taste of the damage visited in the South and nothing like the hurricane disaster of 1938.

Liquor Dealer Accuses Employees

LITTLE ROCK (AP) — Four employees of a wholesale liquor firm here, accused of sneaking out \$8,000 worth of whiskey a pint at a time in their cowboy boots, have been charged with grand larceny.

Accused are W. N. Gossett and W. L. Ogden, both of Mayflower; W. E. Pepper and Charles Graham, both of North Little Rock.

Detectives Carl Jackson and Ben White, who arrested the men in following up information from a private detective, said some of the whiskey was sold to F. W. Johnson, North Little Rock used car dealer, and the remainder was sold in dry Faulkner County.

Johnson was charged with receiving stolen property. All five were released on bonds of \$500 each.

The four accuse of grand larceny were employed at F. Strauss & Son, Inc. The detectives said the men had been putting a pint of whiskey in each of their cowboy boots as they left work over a period of several months.

The detectives said they found a cache of 47 pints and six half pints of whiskey at Johnson's car lot.

Another Huge Plant Is Planned

EAST ALTON, Ill. (AP) — Olin Industries, Inc., may start construction on a 165 million dollar aluminum plant soon.

John M. Olin, president indicated construction would be started in the firm's quarterly statement to stockholders yesterday.

"Plans for financing our entrance into the aluminum industry are almost complete," Olin said.

"We are presently awaiting to negotiate with the federal government in order that the contracts may be signed and construction begun on the necessary facilities for the production and fabrication of aluminum."

Olin, when announcing plans for the plant last November, said no location had yet been selected. It will produce 110,000 tons of primary aluminum annually.

WASHINGTON, Aug. 14 (UP) — The Defense Department today released the names of 30 army men whom the Communists claim "escaped" from North Korean prison camps, but who never reached United Nations lines.

The Communists reported that 147 American prisoners "escaped" from their custody during the Korean War. Today's list of 30 was the first installment of those 147 names. Other lists will follow.

The Defense Department skeptically pointed out that in no case were the Communists reports verified, and not one of the men listed returned to United Nations control.

The department notified net of kin of men on the list but told them that the report could not be confirmed.

Today's list of "escaped" Americans included:

WASHINGTON (AP) — Personal appetites of hospitalized veterans now get particular attention as part of a unique system which has lowered the Veterans Administration's hospital food bill by \$1,800,000 VA officials said today.

What started out in 1943 as a study to eliminate wide differences in food costs among the VA's scattered hospitals resulted in a new concept of feeding the 500,000 patients they treat annually.

The scientific feeding pattern even allows hospitals to satisfy the eating habits of patients from different sections of the nation.

Retired Vice Adm. Joel T. Boone, the VA's chief medical director, said in an interview:

"Because of the flexibility of standard ration pattern, with its stress on nutritional values, VA now can go to considerable lengths in pleasing the palates of its patients 8 even to the extent of encouraging patients to bring their favorite recipes from home."

"Those recipes are increased in size and then tested. If they are satisfactory in one hospital, they can be sent to the other hospitals so as to provide a constant variety of foods and flavors throughout the hospital system."

As the study went into cost factors, it was concluded that not only wide fluctuations in cost, but also variations in nutritional levels, had to be straightened out.

A basic food allowance was developed. Extra allowances were made to meet increased nutritional needs caused by some illnesses, and the whole plan was geared to recognize the psychological and emotional aspects of feeding sick people.

VA says the standard ration pattern which resulted has eliminated variations in costs and nutritional values and yet is providing each patient with a better balanced diet at less cost.

The VA hospitals serve about 42 to 44 million individual rations a year.

Some features of the new program:

1. A uniform method of cutting meats to permit uniform cooking and portions of a size to insure consumption.
2. Cooking in small quantities throughout the average 1½ hours it takes to feed the patients one meal, thus assuring freshly prepared food and eliminating the waste of cooking too much.
3. Limiting purchases of meats and other perishables to quantities that can be used before storage causes shrinkage or spoilage.

Wallroos to Be Swapped by Zoo

SAN FRANCISCO, (AP) — San Francisco is getting rid of a couple of wallroos, but is getting a binturong.

Carey Baldwin, San Francisco Zoo director, says he is swapping the Seattle zoo a female capy and three grizzly bears for a binturong something like a civet cat and six gibbons (something like kangeroos).

The San Francisco Zoo will get three more gibbons from a traveling animal show in exchange for a pair of wallroos, something like kangaroos.

Baldwin said his zoo was six giraffes over the bear quota and the keepers voted unanimously to get rid of the camel, named Old Meanie.

Arkansas to Save Over \$1.2 Million

LITTLE ROCK (AP) — Sharp increases are expected in Arkansas watermelon and cantaloupe production this year, but even sharper decreases are forecast in the sweet corn and tomato crops.

The Crop Reporting Service forecast today that the cantaloupe crop would total 72,000 crates, compared to 60,000 crates last year. This still is below the 10-year average of 91,000 crates.

The 1953 watermelon crop was estimated at 3,219,000 melons. Last year's production was 2,809,000 melons and the 10-year average is 2,333,000.

Dry weather reduced the sweet corn crop. The Crop Reporting Service said, and a yield of only 22,000 bags of five dozen ears each is expected. The 1952 production was 30,000 bags and the 10-year average 285,000 bags.

The processing tomato crop in Arkansas is forecast at 7,200 tons, compared to 14,400 tons last year and a 10-year average of 30,500 tons.

Scientific Feeding of GIs Costs

Quake Toll in Greece May Reach 1,000

By ALLAN JACKS

PATRAS, Greece (AP) — The terrifying series of earthquakes that visited death and destruction of Greece's Ionian islands appeared to be dying down today as air and naval forces of many nations pressed a vast joint rescue operation.

The Athens observatory reported earth tremors were continuing but it said they were only feeble rumblings. Observatory officials would not say that the danger has passed completely but they predicted there "probably won't be an immediate recurrence of this week's disasters."

As the international rescue and relief work grew in magnitude, tales of destruction and tragedy, continued to pour in.

At least 40 warships from Greece, the United States, Britain and Israel standing off the three stricken islands sent a steady stream of men and relief supplies ashore. Many other smaller vessels, mostly Greek, removed hundreds of victims.

The islands of Ithaca, Kefallonia and Zakynthos were ripped by a series of shocks starting last Sunday. The quakes completely destroyed the three largest cities on the islands, partially wrecked many villages, tore up roads and left thousands homeless.

There still was no accurate count of the dead and injured, but almost all officials agreed the death toll will reach 1,000 and may be even higher. Many thousands of the islands' 120,000 residents have been injured.

Only light tremors were felt on the devastated islands today but people continued to die — some from injuries received earlier, others from fire still sweeping the port city of Zakynthos on Kefallonia Island. The blaze has raged continuously since Tuesday, the day of the strongest shocks.

Zakynthos, and Agrostolion and Lixourion, on the island of Kefallonia, have been almost completely destroyed. They are the largest communities on the islands.

The Athens observatory said it recorded 10 more tremors — described as feeble post-quake rumblings — between 6 p. m. last night and 6 a. m. this morning. The observatory said, however, that the shocks were the lightest noted since Sunday.

Graves Readied for Icebox Victims

WEST MEMPHIS, (AP) — Graves were readied today for four little boys and their baby sister strangled and suffocated while playing inside an old icebox.

The five small bodies lay in identical white coffins at a funeral home here, awaiting services set for tomorrow. They will be buried side by side in Crittenden Memorial Park.

The children were found Wednesday night, huddled in an unused chest-type icebox sitting on the porch of their farm home near Proctor, Ark.

Their mother, Mrs. J. A. Hallman, and two other children had spent Wednesday evening cotton in a field three miles from their house. The father was working temporarily in Rockford, Ill.

The dead children were Edward, 7; Wesley, 7; Odie and Tommy, 4-year-old twins, and the baby of the family, 2-year-old Barbara Ann.

TEXARKANA OFFICER Slated for Japan

TEXARKANA (AP) — Gen. Harrison Shaler, commanding officer at the Red River Arsenal near here since last December, was notified today that he has been assigned to Japan as ordnance officer for the Far Eastern Command.

He said he expects to leave Texarkana about Sept. 1.

A 30-year veteran of ordnance work, Gen. Shaler was chief of the personnel training division in the Army Ordnance Department at Washington before coming to Texarkana.

As he has continually done during his investigation, McCarthy refused to identify witnesses or targets in the inquiry. He said this would have to await the public hearings which will begin Monday.

The only names to come to the surface have been those of Edward M. Holschmidt, a bookbinder at the printing office, and his wife, Esther, who revealed through their attorney, Stanley B. Frosh, that they are under subpoena by the subcommittee.

"I can say very definitely that Frosh's client is not the only one involved," McCarthy told reporters. "It has branched out a little more."

"It will involve others presently employed in the printing office or at least who were employed there within the past few days."

Says Newsmen Are Killing Prisoners

TOKYO, (UP) — Communist Correspondent Alan Winnington charged today that American newsmen were killing prisoners of the Communists with their "mountain pens."

The London Daily Worker correspondent said in a dispatch from Kaesong quoted by Peiping radio that "journalistic scavengers" are drumming up false atrocity stories from returning prisoners.

He scoffed at charges that the Communists took prisoners on death marches, forced them to attend indoctrination lectures and brought Russians into North Korea for military advice.

"Any person who wished to add by all the Americans killed by mountain pens since they were taken prisoner will find out that it amounts to several times more than ever claimed to be missing in Korea," the broadcast quoted Winnington.

Returning prisoners said that Winnington lured them during their captivity.

Distinguished Generals Leave Army Service

WASHINGTON (UP) — Today was the last day on the joint chiefs of staff for two of the nation's most honored soldiers, Gen. Omar N. Bradley and J. Lawton Collins.

Bradley, the modest, soft-spoken "GI's general," will step down tomorrow as chairman of the joint chiefs. "Lightning Joe" Collins will leave his post as Army chief of staff.

At the Pentagon today, Collins was awarded a gold star, in lieu of a third Legion of Merit decoration, for his services as commander of the 25th Infantry Division in the Solomon Islands during World War II. Navy Secretary Robert B. Anderson presented the medal in the name of President Eisenhower.

At a glittering farewell party last night, more than a thousand dignitaries — statesmen, politicians, administration officials, and military leaders — said their goodbyes.

The reception, given by Army Secretary Robert P. Stevens, was held at the officers club at nearby Fort McNair after the generals presided at a final military review.

The 60-year-old Bradley will move into private life tomorrow, taking a job as chairman of the Bulova Research and Development Laboratories, a subsidiary of the Bulova Watch Co. His departure will mark the end of the five-star generals on active service in the armed forces.

Collins, 57, has been named U. S. representative on the military committee of the standing group of the North Atlantic Treaty Organization.

Adm. Arthur W. Radford will take over as chairman of the joint chiefs. Gen. Matthew B. Ridgway will succeed Collins as Army chief of staff.

Agents May Call About Income Tax

By JAMES MARLOW

WASHINGTON, Aug. 14.—If a man from the Internal Revenue Service knocks on your door, wanting to know if you filed an income tax return, it's because of a paragraph tucked away deep in the tax law. It says "Every collector has the right to call on you to determine if you have made a return."

But suppose an agent comes to your home, asking questions about your income tax return, and you slam the door in his face. He tells him it's none of his business. He tells him that, if he wants to know anything about your income tax return, he can look it up at the nearest revenue office. He tells him you make your own business.

It says "Every collector has the right to call on you to determine if you have made a return." It says "Every collector has the right to call on you to determine if you have made a return." It says "Every collector has the right to call on you to determine if you have made a return."

It says "Every collector has the right to call on you to determine if you have made a return." It says "Every collector has the right to call on you to determine if you have made a return." It says "Every collector has the right to call on you to determine if you have made a return."

It says "Every collector has the right to call on you to determine if you have made a return." It says "Every collector has the right to call on you to determine if you have made a return." It says "Every collector has the right to call on you to determine if you have made a return."

General's to View Camp Polk Training

CAMP POLK, La. (AP) — A trio of major generals will visit units of the 39th Infantry Division, Louisiana and Arkansas National Guard, here early next week.

Most well known of the three is Maj. Gen. Hayden L. Boatner, of New Orleans, the famed "Bulldozer" of Koje Island.

Presently commander of the Fourth Army, of which Louisiana and Arkansas are part, Gen. Boatner gained fame when he put down Communist-inspired riots at the Koje Island prison camp.

The other two visiting officers are Maj. Gen. George W. Smythe, special assistant for civilian components affairs of the Army, and Maj. Gen. John M. Letz, officer in chief of Army Field Forces.

General Smythe will visit the 39th now in the midst of its annual 2-weeks encampment Monday afternoon. Gen. Boatner and Letz will arrive here Wednesday.

Meanwhile, troops of the 39th pushed up their training with increased tempo on all firing ranges.

Plans also were being polished for the three-day field problem in which the division will face an unannounced attack from an "aggressor" force.

Little Rock to Get 2nd TV Station

LITTLE ROCK, Ark. (AP) — The second television station will go on the air within 60 to 90 days with call letters KETV. It will operate on ultra high frequency on Channel 23.

This was announced yesterday by G. L. Alexander of New York, general manager of the Great Plains Television Properties, Inc., owners of KETV.

Alexander said the Federal Communications Commission in Washington must still approve the television tower site.

Meanwhile, the Arkansas Broadcasting Co., which is building a radio station KARA here, has asked the FCC to dis-

miss its protest against the granting of a television permit on Channel 4 to the Arkansas Radio and Equipment Co., owners of KARK.

Arkansas Broadcasting owns Little Rock.

11-Year-Old Is Killed by Arrow

BUFFALO, Colo. (AP) — An 11-year-old boy was killed yesterday by an arrow which was fired from a bow.

The boy, Wayne Paul, 11, was shot in the chest while playing with a bow and arrow in a field near his home.

Wayne was taken to a hospital where he died shortly after midnight.

The boy's father, Paul, said he was not with him when he was shot.

The police are looking for the person who fired the arrow.
